INTRODUCTION

Full Stack Developer with hands-on experience building scalable web applications and AI-driven automation using Next.js, React, Node.js, FastAPI, PostgreSQL, and MongoDB. Skilled in authentication, REST APIs, containerized and cloud deployments (AWS, GCP), and applying LLM tooling such as LangChain to real product workflows, including voice-bot and WhatsApp-bot automation.

EXPERIENCE

Full Stack Developer + AI 10/2025 – Present

Pelocal Fintech Noida, India

- **AI Voice & WhatsApp Bots:** Contributed to an AI-powered outbound voice agent and a WhatsApp bot used for automated customer/collections interactions, including prompt behavior design and transcript-driven debugging of conversation logic.
- **Call Report Analytics Dashboard:** Built a full-stack Next.js application that ingests raw call-report data and produces visual analytics and multi-sheet Excel exports (MongoDB, ExcelJS, Recharts), with email-based report sharing via Nodemailer.
- **Report Automation Service:** Developed a FastAPI service using APScheduler to automatically fetch and email daily call reports on a fixed schedule.
- **Knowledge Base & Storage:** Built an internal Knowledge Base to centralize documentation and implemented secure call-recording storage using GCP.
- **Campaign Workflow:** Designed a campaign workflow to track status and automate progress updates, improving team productivity.
- **Infrastructure:** Used Docker for containerized services and Redis for caching, and deployed applications to AWS.

Full Stack Developer 06/2025 – 09/2025

Design.Technology

- Built full-stack web applications using React (frontend), Next.js, and Prisma (backend ORM).
- Developed an e-commerce medicine platform, covering product listings, cart, and order flows.
- Built a doctor discovery/booking website for a U.S.-based client.

SKILLS AND INTERESTS

Frontend Technologies — HTML5, CSS3, JavaScript, TypeScript, Bootstrap, Tailwind, React.js, Material UI, shadcn UI, Next.js

Backend Technologies — Node.js, Express.js, Next.js (API routes), FastAPI, Prisma, Zod, Postman, Cloudinary

Database — MongoDB, PostgreSQL, Redis

AI / LLM Tooling — LangChain, LangGraph (in progress), LLM APIs, RAG fundamentals

Cloud & DevOps — AWS, Google Cloud Platform (GCP), Docker

Version Control — Git, GitHub

PROJECTS

Memory Photo Album 09/2025 – 10/2025

- Developed a full-stack image-sharing web app “Picture” using React, TypeScript, Material UI, Node.js, Express, and MongoDB, featuring secure Google authentication, image upload, and responsive UI. Deployed on Vercel with optimized frontend-backend integration.

Daily Learning Notes 12/2025

- Built a Daily Learning Notes application using Next.js and PostgreSQL, enabling users to create, update, and manage personal learning notes efficiently.

- Implemented secure Google Authentication, providing seamless login and user-specific data access with protected routes.

Workasana Backend — Task & Team Management 2025

- Built a RESTful backend for a task/project management system with JWT authentication, modular CRUD APIs for Projects, Teams, and Tasks, supporting multi-owner assignments and status tracking with Chart.js.

EDUCATION

Bachelor of Engineering in Computer Engineering 12/2021 – 06/2025

Parul University
